EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Computer Science & Engineering	MRECW	2023-prsents	8.00
Intermediate	Physics, Chemistry, & Mathematics	Sri Chaitanya	2023	7.43
SSC	-	SDA School	2021	10.0

WORK EXPERIENCE

- **Web Development Intern** [InAmigos Foundation] May-Jul 2026
 - Collaborated with the development team to build and enhance website features, ensuring a seamless user experience. Worked in an agile environment, contributing to feature development, testing, and deployment.
 - Developed responsive and user-friendly web pages using HTML, CSS, JavaScript, and React.js.
 - Integrated frontend components with backend APIs and participated in debugging and performance optimization.
- **Full Stack Developer Intern** [UnderGrads Media] June-July 2026
 - Developed and maintained full-stack web applications using **React.js, Node.js, Express.js, and MongoDB**.
 - Designed and integrated RESTful APIs, connecting frontend interfaces with backend services and databases.
 - Built responsive, reusable UI components while implementing backend features such as authentication, CRUD operations, and database management.

PROJECTS

- **Velvet Brew – Café Management & Ordering Platform** [React.js, Node.js, Express.js, MongoDB] June-July 2026
 - Developed a full-stack café management platform featuring online ordering, table reservations, customer authentication, and an admin dashboard.
 - Built RESTful APIs with Node.js and Express.js, integrated MongoDB for data management, and designed a responsive React.js frontend and Backend. Implemented real-time order management, inventory tracking, and role-based access for customers and administrators.
- **Elementum – Corporate Business Website** [React.js, JavaScript, CSS] May-June 2026
 - Designed and developed a modern, responsive corporate website with multiple business-focused pages and interactive user interfaces.
 - Implemented reusable React components, responsive layouts, smooth navigation, and performance optimization for an enhanced user experience. Focused on clean UI/UX design, mobile responsiveness, and cross-browser compatibility using modern frontend development practices.
- **AI Resume Builder & Analyzer** [React.js, Node.js, AI API] Nov-Dec 2025
 - Built an AI-powered resume builder and analyzer that generates professional resumes and provides intelligent resume feedback.
 - Developed secure REST APIs for resume processing and integrated AI APIs to analyze resume content and suggest improvements. Implemented responsive user interfaces, real-time form validation, and downloadable resume generation for a seamless user experience.

POSITIONS OF RESPONSIBILITY

- **College Event Coordinator** [Inter-College] Sept-Oct 2022
 - Coordinated the planning and execution of a college technical event by managing registrations, scheduling, venue arrangements, and participant communication.
 - Led a team of volunteers to oversee event logistics, resolve on-site issues, and ensure the smooth execution of all technical sessions and activities.

TECHNICAL ACHIEVEMENTS

- Successfully completed multiple Full Stack Development internships, building production-ready MERN stack applications. Developed and deployed full-stack web applications on **Vercel** and **Render** with MongoDB Atlas integration.
- Built AI-powered applications including an AI Resume Builder & Analyzer and an AI UI/UX Generator using modern web technologies.
- Maintained a portfolio showcasing full-stack projects with responsive UI, REST APIs, authentication, and database integration.

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML5, CSS3, Python, Java, MySQL
- **Tools:** Git, GitHub, Vercel, VS Code, Render, MongoDB, MongoDB Atlas, Figma, Netlify, GitHub Pages
- **Moocs:** Full Stack Web Development, React.js, Node.js & Express.js, MongoDB, JavaScript, Python Programming
